Boston, Massachusetts

Aspire: Five-Week Music Performance Intensive

Summer 2022

WORK EXPERIENCE

New Jersey Institute of Technology | Newark, New Jersey

Research Assistant

February 2026 - Present

- Conduct UX research for accessibility projects (AI smart glasses, NSI captioning systems), applying human-centered design to evaluate real-world usability.
- Led user interviews and observational studies to evaluate real-world interaction.
- Evaluated how users interact with AI-driven systems in real-world contexts, identifying limitations in usability, accuracy, and cognitive load.
- Coded and organized qualitative data from 10+ interview transcripts into structured thematic databases.
- Translated findings into design recommendations improving clarity and accessibility, aligning insights with product goals.

Structured.AI | Remote

Data Operations Intern

December 2025 - March 2026

- Consolidated duplicate user records in HubSpot CRM to improve data accuracy and maintain a single, reliable user profile.
- Analyzed contact data to identify inconsistencies and resolve duplication across records.
- Applied SOP-driven workflows and email validation tools to ensure data integrity and support reliable user data systems.

School of Rock | Cresskill & Parsippany, New Jersey

Music Instructor, Voice & Bass Guitar Teacher

April 2025 - Present (Cresskill) | August 2025 - December 2025 (Parsippany)

- Taught private voice and bass guitar lessons, adapting instruction to individual learning styles and preparing students for live performances
- Coordinated showcases and managed live event setup, including signal flow, sound checks, and troubleshooting for smooth execution
